NEWSLETTER ISSUE NO: 11
23rd November 2009

Dear Parents and Carers,

Calling all Grandparents....

We are looking for grandparents who can adopt a South Rise Class and read with children on a regular basis. If you think that you can help please see Ms Chapman.

Uniform

Please note children are only allowed to wear small stud earrings in school. Also when children are taking part in P.E. they have to cover their earrings with a plaster.

Mobile Phones

When you come and collect your children, please talk to them about how their day at School has been and finish all mobile conversations before you come into the School. Research has shown that parent's use of mobile phones inhibits children's language development.

IDEALS - Introducing Drug Education and Life Skills.

Please come to a meeting on Monday 30th November at 2.45 p.m. in the KS1 hall regarding future drug education at our School.

Child Safety on the Internet

On 2nd December there will be an E. safety Child Net Workshop for parents at 4pm in the KS1 hall.

Reminders

There is again a huge pile of lost property in the KS1 Foyer (making the School look very untidy). Please look for any lost items as they will be donated to the Charity Shop.

Yours sincerely

Mrs Mathison
Head teacher

South Rise has won the Education Business ICT Facility Award 2009

We are delighted to inform you that South Rise has won the above Award. Miss Collins has been working with the children combining literacy lessons with ICT to make students more excited and more involved with their learning in hands-on practical projects throughout the School. This is inspiring them to make best use of the technologies and resources available to them. Please visit www.gettingintoliteracy.com, which documents what we have achieved and click on the Awards tab for more information on this and the School's other successes.

Fund Raising

Poppy Appeal - £159.74

Thank you all for donating to this worthy charity.

Reflective

We give thoughtful consideration to our own learning and experience. We are able to assess and understand our strengths and limitations in order to support our learning and personal development.
